Management Company	HANetf Management Limited is authorised in Ireland and regulated by the Central Bank.
KID Production Date	08.03.2024

What is this Fund?

Type	<p>The Fund is a sub-fund of HANetf ICAV (the ICAV), an open-ended Irish collective asset-management vehicle umbrella fund with segregated liability between sub-funds, with variable capital established under the laws of Ireland and authorised by the Central Bank under the UCITS Regulation 2011, as amended.</p>
Objectives and Policies	<p>The investment objective of the Fund is to track the price and the performance, before fees and expenses, of the EQM Future of Defence Index (the Index). Index: The Index is governed by a published, rules-based methodology and is designed to measure the performance of a global investable universe of publicly listed companies, headquartered in NATO+ countries that generate revenues from the defence (including cyber defence) sector.</p> <p>Eligibility: To be eligible for inclusion in the Index, constituents must meet the following criteria: have a primary listing on a stock exchange or regulated market as described in Appendix 1 of the Prospectus, headquartered in NATO+ countries which derive more than 50% of their revenues from the manufacture and development of military aircraft and/or defence equipment or cyber security contracting with a NATO+ member nation verified by publicly available contract information, minimum market capitalisation and liquidity requirements as specified in the supplement for the Fund (the Supplement). The Index is rebalanced on a quarterly basis where the maximum index weight of each constituent is capped at 5% and the maximum country weight is capped at 50%. Replication: the Fund will employ a "passive management" investment strategy and will seek to employ a replication methodology, meaning as far as possible and practicable, it will invest in the securities in proportion to the weightings comprising the Index. Dealing: Shares of the Fund (Shares) are listed on one or more stock exchanges. Typically, only authorised participants e.g. brokers) can purchase Shares from or sell Shares back to the Fund. Other investors can purchase and sell Shares on exchange on each day the relevant stock exchange is open. Distribution policy: Income received by the Fund's investments will not be distributed in respect of the Shares of this class and instead income will be accumulated and reinvested on behalf of the shareholders of the Fund. Recommendation: This Fund may not be appropriate for short term investment. Currency: The base currency of the Fund is US Dollar. For full investment objectives and policy details, please refer to the Supplement.</p>
Depository	J.P. Morgan SE - Dublin Branch (the Depository)
Additional Information	<p>Shares of the Fund are listed on one or more stock exchanges. Typically, only authorised participants (i.e., brokers) can purchase Shares from or sell Shares back to the Fund. Other investors can purchase and sell shares on exchange on each day the relevant stock exchange is open.</p> <p>Income received by the Fund's investments will not be distributed in respect of the shares of this class. Instead, it will be accumulated and reinvested on behalf of the shareholders of the Fund.</p> <p>Further information such as fund prospectus, latest annual report and latest NAV can be obtained free of charge under www.hanetf.com</p>
Term	The Fund has no minimum fixed term, although the recommended holding period is 5 years. Termination of the Fund is only possible in those cases expressly provided for in the Prospectus or Supplement of the Fund.
Intended retail investor	The Fund is intended to be offered to retail investors who are seeking capital growth over the long term. An investment should only be made by those persons who are able to sustain a loss on their investment. Typical investors in the Fund are expected to be investors who want to take exposure to the markets covered by the Fund's investment policy and are prepared to accept the risks associated with an investment of this type, including the volatility of such market.

What are the risks and what could I get in return?

Summary Risk Indicator

The risk indicator assumes you keep the Fund for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this Fund compared to other Funds. It shows how likely it is that the Fund will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 5 out of 7, which is a medium-high risk class

This classification takes into consideration two elements:

1) the market risk - that rates the potential losses from future performance at a high level; and 2) the credit risk which estimates that poor market conditions are very unlikely to impact our capacity to pay you.

Be aware of currency risk. The Fund invests in securities denominated in currencies other than its base currency. Changes in the exchange rates may adversely affect the performance of the Fund. This risk is not considered in the indicator shown above.

The Fund does not include any protection from future market performance so you could lose some or all of your investment. Investment by the Fund in other collective investment schemes, emerging markets and use of derivatives may involve additional risks. Please refer to the "Risk Factors" sections of the Prospectus and the Fund's Supplement which are available at www.hanetf.com.

Performance Scenarios

What you will get from this Fund depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund over the next 5 years. The scenarios shown are illustrations based on results from the past and on certain assumptions.

Recommended holding period		5 years		
Example Investment:		USD 10,000		
Scenarios		If you exit after 1 year	If you exit after 3 years	If you exit after 5 years (Recommended holding period)
Minimum There is no minimum guaranteed return. You could lose some or all of your investment				
Stress scenario	What you might get back after costs	1,520 USD	4,320 USD	3,270 USD
	Average return	-84.8%	-24.4%	-20.1%
Unfavourable scenario	What you might get back after costs	9,040 USD	9,810 USD	11,210 USD
	Average return	-9.6%	-0.6%	2.3%
Moderate scenario	What you might get back after costs	11,320 USD	14,470 USD	18,500 USD
	Average return	13.2%	13.1%	13.1%
Favourable scenario	What you might get back after costs	14,120 USD	21,250 USD	30,410 USD
	Average return	41.2%	28.6%	24.9%

The figures shown include all the costs of the Fund itself but may not include all the costs that you pay to your advisor or distributor/and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. Due to market risk exposure, you can lose some or all of the amount invested during the recommended holding period of 5 years.

- **The stress scenario** shows what you might get back in extreme market circumstances.
- **Unfavourable scenario:** This type of scenario occurred for an investment between 2014 and 2024.
- **Moderate scenario:** This type of scenario occurred for an investment between 2014 and 2024.
- **Favourable Scenario:** This type of scenario occurred for an investment between 2014 and 2024.

What happens if HANetf Management Limited is unable to pay out?

HANetf Management Limited, as PRIIPS manufacturer of the Fund, is not obliged to make any payment in relation to the Fund, such obligations being those of the Fund itself. The assets of the Fund are kept separately from those of the Manager. An insolvency or default of the Manager should not result in the Fund suffering any financial loss in relation to its assets. The amount the Fund is obliged to pay out is linked to the net assets of the Fund so it is unlikely that the Fund will be unable to pay out unless there is an operational error or an insolvency or default by the Depositary which holds the Fund's assets on its behalf. In the event of the insolvency or default of the Depositary, securities held by the depositary on behalf of the Fund should be protected but the Fund may suffer loss in relation to cash and certain other assets which are not protected. Investment in the Fund is not covered by any investor protection scheme.

What are the Costs?

The party advising on or selling you this Fund may charge you other costs. If so, this party will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover one-off, ongoing and incidental costs. These amounts depend on how much you invest, how long you hold the Fund and how well the Fund performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return).
- For the other holding periods we have assumed the Fund performs as shown in the moderate scenario.
- USD 10,000 is invested.

Investment USD 10,000			
Scenarios	If you exit after 1 year	If you exit after 3 years	If you exit after 5 years
Total costs	58.00 USD	255.00 USD	546.00 USD
Annual cost impact	0.58%	0.58%	0.58%

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year (or RHP if less than 1 year)
Entry costs	0% of the amount you pay in when entering this investment	0 USD
Exit costs	0% of your investment before it is paid out to you	0 USD
Ongoing costs [taken each year]		
Management fees and other administrative or operating costs	0.49 % of the value of your investment per year". This is an estimate based on actual costs over the last year.	49 USD
Transaction costs	0.09% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the Fund. The actual amount will vary depending on how much we buy and sell.	9 USD
Incidental costs taken under specific conditions		
Performance fees	There are no performance fee for this Fund.	0 USD

How long should I hold the Fund and can I take my money out early?

The Fund has no required minimum holding period but as it is designed for longer-term investment it is recommended that you stay invested for at least 5 years. Investors are able to sell their investment on any day on which banks are open in the UK. When you cash in or if you switch between sub-funds, there may be a delay of up to 5 days for this Fund. By selling the Fund earlier than the recommended holding period, you may receive back less than you would have received if you had stayed invested until maturity.

A redemption or exchange fee of up to 3% may be payable to the Manager by authorised participants in such circumstances. Other Investors, i.e. those who sell shares typically on exchange, may be charged additional fees by their broker.

You can make regular and one-off withdrawals. Withdrawals could be greater than any growth achieved and could reduce your investment's value below the amount invested. You should refer to the Prospectus and Supplement for this Fund for the conditions that apply and information on tax.

How can I complain?

In the event you should wish to complain at any time about this Fund, or the service you have received, please contact the Marketing Agent, HANetf Limited.
